

**North Dakota Brain Injury Advisory Council  
Education and Awareness Subcommittee (EA)**

**Videoconference Meeting\*  
February 3, 2021**

**Special Meeting  
Meeting Agenda**

**Domain and Scope of the EA Subcommittee.** EA members have agreed to the following scope of work assigned to the EA.

1. EA members have identified the EA's scope as (1) coordinating the efforts between the BIAC full membership and the Brain Injury Network to advance best practice training opportunities for professionals across the wider service community and to improve outreach and awareness efforts to the wider public regarding brain injury issues, and (2) assessing and proposing specific training and awareness campaigns that will produce a positive effect on the provision of services, across the broad span of service sectors and the wider public.
2. The EA has identified five core EA issues: (1) expanded brain injury protocols, (2) teacher professional development on brain injuries, (3) law enforcement personnel professional development on brain injuries, (4) special education professional development for brain injury assessments, (5) coordinating activities between the ND Brain Injury Network and the BIAC EA.
3. EA members will focus attention on the various professionals and organizations that may require professional development and technical assistance regarding brain injuries, as evidenced in the spread of the five identified issues. The EA has observed the need to carefully coordinate and collaborate with the Brain Injury Network, providing direction, support, feedback, validation, and new ideas to the BIN's ongoing efforts.
4. BIAC members have resolved that the EA, in association with the BIN, periodically revisit the 2016 statewide brain injury survey to assess its relevance and identify emergent key issues for the full BIAC to consider.
